Declaration of conformity

REACH

Registration of substances: regulation (EC) 1907/2006 (REACH) requires that all substances marketed in Europe must be registered and this applies both to substances as such and substances in mixtures.

According to the information available to us, raw materials used in the manufacture of FOAMplus® Film supplied by Storopack and required for registration in accordance with regulation (EC) 1907/2006 (REACH), have been registered by our suppliers.

Substances of Very High Concern – Authorization List – List of Restriction

To produce FOAMplus® Film, raw materials containing the following substances are not used:

- Substances included in the Authorization List (REACH Annex XIV)
- Substances included in the List of Restriction (REACH Annex XVII) or, if present, such substances fulfil the requirements specified in the Annex XVII, as far as they are applicable to compounds for industrial applications.
- ECHA Candidate List of Substances of Very High Concern (SVHC) as per last update 04/06/2026

Note: however, the presence of trace in the products coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.

EU RoHS

We hereby confirm that the FOAMplus® Film supplied by Storopack is compliant with EU directives 2002/95 (RoHS), 2011/65 (RoHS 2) and 2015/863 (RoHS 3)

Dangerous substances as listed in the directive, i.e.: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenils (PBB), polybrominated diphenyls ethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP), and Diisobutyl phthalate (DIBP) are not contained or are below the threshold values.

Heavy Metals

We hereby confirm that in the FOAMplus® Film supplied by Storopack, the heavy metals Pb, Cd, Hg and Cr VI are not contained or their sum is below the 100mg/kg limit.

PFAS, PFOA, PFOS

We hereby confirm that the FOAMplus® Film supplied by Storopack doesn't not contain intentionally added PFAS (poly and perfluoroalkyl substances), PFOA (perfluorooctanoic acid) and PFOS (perfluoro octane sulfonic acid).

PFAS REPORTING UNDER TSCA

The United States Toxic Substances Control Act (TSCA) is a federal regulation that allows the Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. Commerce. This includes reporting requirements under TSCA Section 8(a)(7), which apply to perfluoroalkyl and polyfluoroalkyl substances (PFAS). TSCA mandates the reporting of certain information from U.S. manufacturers of all PFAS chemicals, including PFAS created as manufacturing byproducts. Reporting is also required for PFAS imported into the United States, whether on their own or as an incorporated article component.

PFAS are a large and complex group of chemicals; TSCA PFAS requirements apply to all types of PFAS used in U.S. commerce, as defined by the EPA's Chemical Data Reporting (CDR) database. More information is available from the EPA's TSCA PFAS webpage.

We hereby confirm that the FOAMplus® Film supplied by Storopack doesn't contain any of the five restricted PBT substances.

DECLARATION OF TSCA COMPLIANCE: PBT RESTRICTIONS

On January 6, 2021, the U.S. Environmental Protection Agency (EPA) published final rules under Toxic Substances Control Act (TSCA) Section 6(h) to restrict the importation and use of five persistent, bioaccumulative, and toxic (PBT) chemicals. These substances are:

PIP (3:1), phenol, isopropylated phosphate (3:1), CAS 68937-41-7
DecaBDE, decabromodiphenyl ether, CAS 1163-19-5
2,4,6 TTBP, 2,4,6-tris(tert-butyl)phenol, CAS 732-26-3
HCBD, hexachlorobutadiene, CAS 87-68-3,
PCTP, pentachlorothiophenol, CAS 133-49-3

We hereby confirm that the FOAMplus® Film supplied by Storopack doesn't contain any of the reportable substances.

Persistent organic pollutants (POPs)

We hereby confirm that the FOAMplus® Film supplied by Storopack doesn't contain any persistent organic pollutants as listed on the ECHA website.

Dodd-Frank

We hereby confirm that the FOAMplus® Film supplied by Storopack is compliant with the "H.R. 4173 Dodd-Frank Wall Street Reform and Consumer Protection Act" Section 1502 on Conflict Minerals".

Sec. 1502) *Expresses the sense of Congress that the exploitation and trade of conflict minerals originating in the Democratic Republic of the Congo (DRC) helps finance conflict characterized by extreme levels of violence in the eastern DRC , particularly sexual- and gender-based violence, and contributes to an emergency humanitarian situation therein, warranting certain disclosures under the Securities Exchange Act of 1934.*

Amends the Securities Exchange Act of 1934 to direct the SEC to issue regulations requiring persons for which conflict minerals are necessary to the functionality or production of a product manufactured by that person to make annual disclosures of whether any such conflict minerals originated in the DRC or an adjoining country. Requires the report, regarding any minerals that did originate in the DRC or an adjoining country, to describe: (1) due diligence measures taken on the source and chain of custody of such minerals; and (2) the products manufactured, or contracted to be manufactured, that are not DRC conflict free. Defines "DRC conflict free" as products that do not contain minerals that directly or indirectly finance or benefit armed groups in the DRC or an adjoining country.

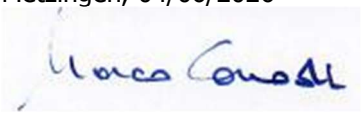

Instructs the Secretary of State to: (1) submit to Congress a strategy to address the linkages between human rights abuses, armed groups, mining of conflict minerals, and commercial products; (2) produce and update periodically a map of mineral-rich zones, trade routes, and areas under the control of armed groups in the DRC and adjoining countries ("Conflict Minerals Map"); and (3) publish in the Federal Register a notice of intent to declare a mineral a conflict mineral.

Directs the Comptroller General to assess: (1) the rate of sexual- and gender-based violence in war-torn areas of the DRC and adjoining countries; and (2) the effectiveness of these newly required reports in promoting peace and security in such countries.

Requires the Secretary of Commerce to assess the accuracy of independent private sector audits and other due diligence processes.

Disclaimer:
the products listed above are not tested to check any possible presence of the substances mentioned above. This information and our technical advice, whether verbal, in writing or by way or trials, are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved.
Our advice does not release the user from the obligation to check its validity and to test our products as to their suitability for the intended processes and use.
